MyLymeData2018: Seeking Cures Together

Investigative journalist Mary Beth Pfeiffer's speech from our recent

MyLymeData conference.

Investigative journalist Mary Beth Pfeiffer speaks in quiet, steady, well-modulated tones. But her message packs a powerful punch. It is at once riveting, deeply moving, and profoundly disturbing.

Pfeiffer, the author of “Lyme: The First Epidemic of Climate Change,” spoke recently at the MyLymeData2018 conference in San Ramon, CA. In addition to the audience in the room, thousands more have watched the speech online.

STAND WITH US. BE PART OF A COMMUNITY THAT CARES.

Don't miss the latest issue of the Digital Lyme Times!

Today at our members' site you will find the current digital issue: ["Tick-Borne Disease Working Group Special Issue"](#). You will also find prior issues of the Lyme Times, as well as new key resources. If your current membership level includes videos, you can now access those videos online. New resources include a physician directory.

Our member site is a great resource and we want to support you in the transition from print to digital Lyme Times, as well as all of the other resources open to you on the Members Community Site. We understand it may have been awhile since you have logged in. Please use the buttons below to explore the new site or to contact us so that we may make this transition easy and quick for you.
